Objective

I am an Aspiring Software developer who is currently learning Software Development Frontend with Texh4Dev fellowship and a business management graduate. I am highly driven, Passionate about everything that got to do with Technology, Self Growth, Business and community empowerment. Proven ability to quickly learn and adapt. I seek any role which will allow me to continue learning, acquire new skill and perfecting my skills. I seek challenging opportunities where I can fully use my skills for the success of the organization. Challenges which will help me learn, grow, and help your organization improve profitability. I am reliable and dedicated into enhancing my professional skills, Capabilities and knowledge. I seek to utilize the educational qualifications I've obtained and others which I am yet to obtain to perform professionally and efficiently in the position I obtain. To commit myself to do all duties within my power and to act in accordance with the ethics of my profession.
